

## IMIA Award of Excellence – nominations invited

At the Medinfo2001 London General Assembly, the International Medical Informatics Association (IMIA) approved the establishment of a Medical Informatics Award of Excellence. The Award of Excellence is given every three years in conjunction with Medinfo. The criteria for a potential recipient of the Medical Informatics Award of Excellence are:

“an individual whose personal commitment and dedication to medical informatics has made a lasting contribution to medicine and healthcare through her or his achievements in research, education, development or application in the field of medical informatics.”

The first award was given at MedInfo2004 in San Francisco to Dr. François Grémy. The recipient the second award, made at Medinfo2007 in Brisbane, was Dr. Jan H. van Bommel.

We are now seeking nominations for the third IMIA Award of Excellence, to be presented at Medinfo 2010 in Cape Town, South Africa. In addition to the Award, the recipient will be invited to give a plenary lecture at Medinfo2010, and will receive support including airfare, accommodation and expenses.

You are invited to submit your nomination, with supporting details, to the IMIA Executive Director by February 28, 2010 at [imia@imia-services.org](mailto:imia@imia-services.org)
