

Manuscripts

Nuklearmedizin/NuclearMedicine publishes original papers, review articles, and case reports in German or English. **Publication in English is desirable.** The manuscript should be organized according to the type of the assigned category. It is essential to divide the manuscript in e.g. Summary, Introduction, Material and Methods, Results, Discussion, Conclusion, and Literature. The most important sections should be stressed by subheadings.

Submission

As of 01.01.2006, all manuscript submissions should be entered online at the URL <http://mc.manuscriptcentral.com/nukmed>. Full instructions and support are available on the site and a user ID and a password can be obtained on the first visit. Support can be contacted by phone (+1 434 817 2040 ext. 167), or e-mail (support@scholarone.com). If you experience difficulties submitting your manuscript online, please contact the Editorial Office by e-mail or phone: barbara.tshisuaka@schattauer.de, +49 711 22987 33.

Checklist

- Size of the manuscript: up to 22,000 characters incl. space bars
- Structure: Title, authors, facilities, running head, Keywords, Summary, Introduction, Methods, Results, Discussion, References (Vancouver style), Address of the author, Legends, Figures (minimum resolution 300 or 800 dpi) Tables.
- Do not use hard returns within paragraphs.
- All manuscripts must be submitted in either Microsoft Word Format (.doc) or Rich Text Format (.rtf). This applies to articles using Windows and Macintosh/Mac/OS.
- For special characters use the ASCII-Code.
- Please check proof generated by system as this is the version seen by the Editor-in-Chief and reviewers.

Acceptance of Manuscripts

Manuscripts are submitted with the understanding that they are **original contributions** and do not contain data that have been published elsewhere. Manuscripts are reviewed by two or more editors, who will decide on the acceptance. It is taken for granted that the publication has been approved by all participating authors. Moreover, in the case of the author being subject to instructions of the institute director, his consent must be obtained.

Once your manuscript has been accepted, please send signed copies of the following to the Central Editorial Office:

- Copyright Transfer Agreement and Conflict of Interest Statement
- Colour Figure Form (if applicable)

These forms can be downloaded at <http://mc.manuscriptcentral.com/nukmed> under Instructions and Forms and faxed back to +49 711 22987 65.

Keywords and Summary

A **German or an English** summary (up to 1,800 characters incl. space bars) as well as 5–6 keywords in German or French and English. Divide the summary in **aim, methods, results, conclusion.**

Preparation of Figures and Tables

Save figures in one of the following formats: .eps, .tif, or .jpg with a minimum resolution of 800 dpi (line drawings) or 300 dpi (photographs). Do not import figures in the text. Symbols, lettering, and numbering should be clear and large enough to remain legible after the figure has been reduced to fit the width of a single column. Use only one type-size. Image files accompanying a submitted manuscript must be supplied electronically in separate files to the main text and not as hardcopies. If your manuscript is accepted and hardcopies must subsequently be sent (submit only clear, glossy, reproducible figures), the back of each figure should include the figure number, and the designation of the top of the figure. The cost of redrawing figures will be borne by the author. For colour illustrations a contribution of € 250.– will be charged to the author.

Create tables using Word or Excel. Do not save your table as an image file (jpg, tif, ppt) or use tab stops. Each table should be appropriately numbered; extensive tables should be avoided.

Figures and Tables must be cited in parentheses in the text in numerical order, e. g. (Fig. 1, Tab. 1). Legends for figures and tables should not appear on the illustrations, but at the end of the manuscript.

Figures and tables already published must be accompanied by written permission from both author and Publisher to reproduce the figure (also author's own illustrations or tables). The correct source is given in the legend.

References

- Arranged alphabetically (first author) and numbered consecutively, max. 40 references.
- According to Index Medicus and Vancouver Style. **Name and address of the corresponding author with phone and fax number** at the end of the reference list.

4. Kluba CA, Mindt TL. Towards the optimization of peptidic radiopharmaceuticals. *Nuklearmedizin* 2011; 50: A20.

Nomenclature and Abbreviations

According to internationally approved rules. Trade names of propriety brands may be stated additionally to the generic name, incl. the name of the producer. The author is responsible for the correctness of the text. Any information on dosage and method of application is supplied without liability of the Publisher and the Editor-in-Chief. The user takes full responsibility for doses and applications.

Authors should avoid the use of names of patients. Patients should not be recognizable from photographs unless their written permission has first been obtained.

Conflict of interest

All authors whose name appears on the manuscript will be required to indicate if there is, or has been a situation where a conflict of interest could be construed. To that end they should acknowledge the source of any extrainstitutional funds or support. In addition, they should acknowledge any financial interests in companies that market material that are, or have been, the subject of research reported in the manuscript. Such information will be held in confidence while the paper is under review and will not influence the editorial decision, but if the article is accepted for publication, there will be a short note for our readers.

Peer Review Process

All articles submitted to the Journal may be pre-reviewed by the editor to ensure they conform to these guidelines. Manuscripts that fail to meet the requirements will not be sent for review and you will be asked to resubmit in an appropriate format. *Nuklearmedizin/NuclearMedicine* reserves the right to reject any manuscript.

Manuscripts that enter the peer review process will be examined by two expert reviewers. Those approved by the reviewers are accepted for publication subject to the authors addressing all editorial and production concerns.

Final Proofs

All accepted manuscripts are subject to copyediting and editorial revisions. The contact author will receive final proofs for approval within the period prescribed; corrections arriving after this time can not be considered. Authors may be charged for extensive alterations in the galley proofs, if the cost of the author's alterations exceed 10% of the cost of composition.

Reprints

Reprints can be ordered by the authors in advance. An order form showing the cost of reprints is enclosed with the page proofs sent directly by the publisher. Other people interested in obtaining reprints are asked to contact the responsible department at the Publishers.

Correspondence

In the event that authors should wish to contact the Editors' Offices, or that of the Publisher, they should always quote their assigned manuscript number. Individuals wishing to contact the Editor-in-Chief are encouraged to use e-mail:

Joerg.kotzerke@mailbox.tu-dresden.de,

Joerg.Kotzerke@uniklinikum-dresden.de.

Business correspondence should be addressed to Schattauer GmbH, Verlag für Medizin und Naturwissenschaften, Hoelderlinstr. 3, 70174 Stuttgart, Germany.

The Instructions to Authors are also available online at www.nuklearmedizin-online.de
