

Diehl et al. "Increased levels of circulating microparticles in patients with severe aortic valve stenosis" Thromb Haemost 2008; 99 (4)

**Supplemental Figure 1:**  
**Formation of PMP-leukocyte conjugates.** A) CD45<sup>+</sup>/CD62P<sup>+</sup> PMP-monocyte conjugates. AVS patients have more PMP-monocyte conjugates (n=4). B) Most conjugates consist of activated monocytes (CD11b) and PMPs.
